Legislature Finally Ends 5 Months Of Work

No School Aid Bill Is Enacted

Lost Weekend Sees
Many New Measures

COLUMBUS, June 4 - Inability to enact a bill to increase state aid to schools headed the list of failures today as the 99th Ohio General Assembly finally completed its five months of working sessions.

Although clocks were cov-Jered to preserve the illusion that-legislatively speaking it was still Friday, it actually was almost 11 a. m. Sunday before the weary, irritable and angry legislators finally called it quits.

The legislature was bound by resolution to end its working June 1 on the assembly's calendar. The solors will return for for the signing of bills and then or sine die adjournment.

important bills.

AS A RESULT of the conferences, a terrific amount of work finally .was accomplished, despite the failure of the school bill (see story on Page 4) and two bills by Rep. Roger Cloud R-Logan) which would have re-Cursed the control of poor relief to the counties.

and Sunday will never show on charge that allowing the Reds to the assembly's calendar - saw control China was the worst popushed to final enactment, sub-

25 Farmers Ask County For Help

Army Engineer To Be Consulted

A group of approximately 25 farming residents of Madison and Harrison Townships sought the backing of Pickaway County commissioners in a move to persuade the U.S. government not to block public roads to their

The project that would block them off is the proposed expansion of Lockbourne Airforce base. About 1,100 acres of the county's finest farm land has been earmarked for purchase by the government.

The landowners appearing before the commissioners Monday explained that they are located south and southeast of the airbase. Expansion of the base. they said, would mean the closing of portions of the Wright Road and Circleville-Lockbourne Eastern Road.

Included in the area to be taken into the base are township roads. These are the roads that farmers in the area depend on to get to and from their farms. They would be cut off and isolated, they claim. Some roads would be abandoned, others cut

off dead end. Involved in the purchase of land by the government is all of Section 18 in the northwest corner of Madison Township and nearly all of another section in the northeast corner of Harrison

"What we want," said a spokesman for the group of farmers, "is a new road built south of the airbase, connecting the eastern end of Wright Road with Circleville-Lockbourne Road."

The county commissioners explained that "there is very little we can do to change the mind of the federal government."

At the request of the farmers, however, the commissioners instructed County Engineer Henry T. McCrady to write to Harry Pockras, chief assistant engineer, U.S. Corps of Engineers, Huntington, W. Va., asking him to send a representative to explain the government's plans to the group of landowners.

too. . . . right on the dot." It is understood that nearly all chase have been completed. The land may involve a release from the Pickaway County tax dupli-

WATER VITAL RESOURCE IN PEACE OR WAR; WE NOW USE 200 BILLION GALLONS DAILY!

By H. D. CRAWFORD Central Press Correspondent

essential than any other natural resource for the perpetuation of life on the earth. Some civilizations of the past have declined to extinction because they could not get enough water to prevent their once-fertile land from becoming desert. And a major problem facing our highly industrialized, scientific culture today is how to supply enough water to meet our increasing demands.

Water use in the United States has increased 35 billion gallons daily in the last decade, according to Oscar L. Chapman, secretary of the Interior. In 1940, Americans used 165 billion gallons a day, but in 1950 their daily consumption had climbed to 200 billion gallons.

Not only is water essential to our daily diet and necessary for producing all our food, but American industry-so vital to our strength and power as a nationuses 30 billion gallons of water dustrial users of water are indus-

Introduced only a year ago, X-TANE has swept the state! Never before in Ohio history have so many people approved a new gasoline in so short a time.

All over the state many have found that regular-priced X-TANE gives them the X-tra Performance they formerly could get only from premium-priced gasoline. Get all the X-tras that are built into your engine ... get a tankful of X-TANE today!

X-tra power X-tra fast acceleration X-tra Mileage

Regular-priced X-TANE is so good that it will actually give full performance in the great majority of the cars on the road today. The remaining super-sensitive cars still require the extra high octane of Sohio Supreme. Let your car engine decide. No use paying extra for premium-priced gasoline if high-rated X-TANE will give you full performance. OPS PROGRAM BEING SET UP

Chrysler's new FirePower engine has rocked the automobile business right down to its roots.

Quietly, behind all the laboratory talk of "engines of tomorrow" . . . Chrysler has built a revolutionary engine for you to drive today!

It can give you 180 horsepower, to surpass any other engine in any other car. It develops its power in its own new kind of way!

But you don't have to "baby" it . . . or give it fancy quality gasoline to get that 180 horsepower performance!

FirePower takes any regular grade gasoline you care to buy . . . and adds its own new "mechanical octanes" to the power-giving octanes of the gasoline itself.

The result is something new and startling in responsiveness . . . and in safety, too. You get quicker and smoother control of when and how you move than you have ever felt before.

It's the engine of tomorrow . . . on the road for you today . . . and your Chrysler dealer invites you now to try it, in the all-around most astonishing new car you ever drove!

180 HORSEPOWER

Here's the new Hemispherical Combustion Chamber that's the heart of Chrysler FirePower. Its new, de-

signed-in "mechanical octanes" make regular grade gas do what best premium grades can't do in any other engine you can drive today!

Lowered Resistance a Factor When Canker Sores Appear

By HERMAN N. BUNDESEN, M.D. | vaccination virus and the virus

MOST everybody is familiar causing canker sores, and herpes simplex, are very similar. with the common canker sore, those little whitish-gray ulcerations which occur in the mouth and on the lips, but many people, however, do not realize that these nuisance-makers are due to a recently been discovered and it has also been found that a large proportion of adults have a fairly high resistance to it. This fact built up an immunity to this tiny invader through repeated light infections, often too small to cause symptoms. Other than preventive measures.

Since the ulcers usually clear up of themselves after a short period of time, treatment is directed toward relief of symptoms. Astringents are applied to QUESTIONS AND ANSWERS and allowed to dry silver nitrate sticks have also What is the cause?

Recurrent Outbreaks

This works because the smallpox | needed to find the cause.

Usually, individuals having canker sores have a lowered resistance. It is important that the resistance be built up in such persons. This may be done, in virus infection. This virus has part, by giving large doses of vitamin B-complex. If any anemla is present, it should be corrected. The diet should be well balanced, containing plenty of suggests that many of us have green vegetables, fresh fruits, meats, eggs, and cereals. From four to six glassfuls of fluid should also be taken daily.

The patient who has repeated this natural process, there are no canker sores should also have a complete examination made by his physician to determine whether any chronic disease, such as tuberculosis or diabetes, may be lowering his resistance.

One of the most popular is a zinc M. G. E.: I am twenty years old, chloride solution. It is applied to and in very good health except the ulcer with an applicator, that I have missed my period Camphorated phenol, alum, and which was due four weeks ago.

cleaned often should have gloss prouse and M. E. Noggle of MEderful paint! colors: 1-COAT FLAT WALL PAINT

For SURE decorating success!

One application of ONCE-OVER Flat Wall Paint and your decorating job is WELL DONE. We mean over wallpaper OR fresh plaster OR calcimine OR concrete OR almost any surface

Johnston ONCE-OVER, famous as "the roller-coater" paint, is not a bubbly, soapy, water-base emulsion, but a true flat genuine oil finish. When applied with lamb's wool roller, results are perfect - and roller NEVER CLOGS in the middle of a job! When applied with brush, ONCE-OVER levels smooth without brush marks.

Absolutely no glare. Dries in one hour. Won't warp or lift wallpaper, self priming. No unpleasant odor. Washes beautifully. If the room is worth decorating at all, it is worth decorating with Johnston ONCE-OVER - available in over 100 smart, new exciting colors, all lime-proof.

"Most ONEderful paint I ever used," says Ruth Lyons

Bean, principal of Butler terday from the CTA to forget (Pa.) high school, who is now the troubles the conductor causstudying conditions in Europe ed him. under sponsorship of Harding College, writes from Oslo, Norway: "Norway's program of so- United States was the Old York cial services, which is very ex- road between New York and tensive, has not been expanded; Philadelphia. It was built in 1711. neither has it been reduced-It would be almost impossible for any government to reduce the Beer-Wise services at this point.

"These non-reducible services, plus expenditures for defense, have produced a tax binder (shackle) and government con-'-ol that are almost ruinous, especially for business and industry. It is not unusual for a very small business to pay 75 percent of its net profit in taxes: and the remainder is again taxed heavily on the personal income of the

"Government control is very extensive indeed. In addition to levying taxes, and thereby exercising considerable measure of control, it has necessarily extended control over the lives of the people as it has extended services to them, and as it has taken over responsibility for their welfare.

"The people complain bitterly about the high taxes and government restrictions, but they would never reduce the very thing that causes them. Obviously many people had expected these things to be done without any personal inconvenience to themselves. It is the old story of the 'iree ride'

'Housing is a good case in point. In Oslo, for instance, the government owns and operates most of the housing units and has done so for a considerable period of time. Private housing is almost non-existent for the average man. Since the private investor has been driven out of the market, the government finds that it must continue to carry the ever-increasing housing burden -and the government now is broke. Who builds? Nobody! And so the condition becomes more and more aggravating as newly married couples demand the same subsidized low rent government housing as their parents have been getting for years. It would seem that once a cycle of this sort is started, it cannot be stopped.

"EVERY ARTICLE IN Norway is subject to price control. Rationing is still the order of the day, and food is far shorter than I imagined it would be. Meat and cheese are short, with reindeer

MAGIC IN MODERN HEATING! NEWEST, FINEST IN AUTOMATIC CENTRAL HEATING COMFORT

Here's low-cost heating magic that gives amazing even-heat distribution. Individual heat regulation in every room with over-all thermostat control. Pre-engineered and prefabricated, simple and easy to install. Small 31/2-inch warm air ducts save up to \$100 on installation. Install

Blend-Air for a better heated home. The DUCTS MAGIC BLENDER The MAGIC BLENDER

This simple, small 31/2-inch prefabricated pipe fits any construction. A revolutionary new achievement that simplifies installation, reduces its cost. Flexible elbows bend around obstacles easily. Save costly metalwork on the job, speed installation.

Each room has its own individual blender. It receives (through the 31/2-inch ducts) the warm air from the furnace. This pulls in room air and blends it with the freshly heated furnace air; circulates the blended air through the room, giving even, moving warmth for healthful comfort.

for Gas or Oil

Here is the powerful modumatic-comfort Coleman furnace that forces warm air through individual ducts leading to each room. Compact, spacesaving, a powerful heating plant.

THE KIND THAT MAKES TRUCK DRIVERS SMILE

Yours in every new INTERNATIONAL TRUCK!

Every new International gives you the Comfo-Vision Cab-"roomiest cab on the road."

You get full front vision through the one-piece Sweepsight windshield. You get adjustable seats, controlled ventilation, more positive steering control and greater maneuverability from a more comfortable position. In short, you get outstanding

comfort, visibility, and safety in a cab that drivers themselves helped design. P. S. And every new International, regardless of size, is heavy-

duty engineered with the traditional stamina that has kept Internationals first in heavy-duty truck sales for 18 straight years. Call or come in for a demonstration, soon.

GAMES TUESDAY National League

Aeam

Belwin Bunter, the six-yearold pacing gelding owned by John Martindale of near Circleville, wound up the Lebanon Raceway harness meeting Saturday night by setting a new track record.

Entered in a two-heat event and driven by Lou Huber Jr., who also set a record, Belwin Bunter went the mile distance in 2:04 2-5. The win was his fourth in five starts.

In view of the fact that the p Lebanon meeting is run at night O and on a half-inile track, this mark is considered equivalent to making the trip in two minutes

Belwin went the first heat full tilt all the way. He went the first quarter in 31 seconds, was at the half in 1:02 2-5, hit the threequarter pole in 1:34 and came the last quarter in 30 2-5 sec-

onds. Coming back for the second mile heat in the same event, Belwin was nosed out for the win in a photo finish. He had faltered midway in the race, but regained stride and came the last quarter in 30 seconds flat.

YOUNG HUBER was acclaimed the leading driver of the meeting, being far in advance of the nearest challenger. Going into the Saturday night program, he had amassed a point total of 233, with points awarded according to the firsts, seconds and thirds he had driven during the C meeting. He was given several prizes for his record.

Huber is now taking Belwin Bunter and the rest of his training stable to Louisville. Belwin's first start there will be for a \$2,500 purse.

Martindale purchased Belwin as a weanling and he has been trained the last few seasons by

Michigan Teams Win Top Laurels In ABC Tourney
